

FOR IMMEDIATE RELEASE

DuBois and Pyosa Form Partnership to Develop Metal Finishing Market in Mexico

SHARONVILLE, Ohio – (February 16, 2010) – DuBois Chemicals of Cincinnati, Ohio has just announced a partnership with Pyosa SA de CV to develop the metal finishing market in Mexico.

DuBois Chemicals is a global provider of sustainable cleaning solutions for safe, high performing facilities. The company's focus is to develop innovative programs that reduce their customer's total cost of operation. DuBois has a broad range of industrial specialty products in five business sectors - metal finishing, water treatment, transportation / equipment cleaning, paper process cleaning / control and food cleaning and sanitation. For more information, please visit www.duboischemicals.com.

"We are very excited to partner with Pyosa to service the metal finishing market in Mexico. DuBois brings a substantial range of leading edge products including metal cleaners and coating pretreatment, specialty lubricants, metal working fluids and maintenance / general purpose cleaners to combine with Pyosa's strong national presence and reputation for high quality service and technical support" said Blair Imbody, DuBois VP – International.

PYOSA, SA de CV is a Mexican company with over 70 years of experience in the international fine chemicals market. It meets the needs of a diversified group of clients in industrial markets such as inks, textiles, coatings, plastics, leather, paper, fuels, detergents, car batteries, TV tubes, agrochemicals and other diverse chemicals intermediaries. Pyosa has a broad network of facilities in Mexico with operations in Mexico City, Guadalajara, Leon, Puebla and Monterrey. For more information visit www.pyosa.com

"The metal finishing business in Mexico has great potential. Pyosa along with DuBois will bring innovative products and services to this market that are lean, clean and green. We are thrilled that we have this opportunity to work with a company like DuBois that offers solutions that are energy efficient and harmonious to our customers and the environment" said Jose Fernandez, Commercial Director, Pyosa.

According to both companies, lean is about reducing waste, improving efficiency, and reducing your cost through labor, water and energy savings. Green is used to describe products or processes that have been designed and constructed with minimal negative impact to the environment and with an emphasis on conserving resources, energy and health. Clean means achieving the quality of performance and cleanliness the customer requires - guaranteed.

Pyosa and DuBois will be exhibiting together at the EXPO Manufactura in Monterrey, Mexico from March 2–4 (Booth # 224). EXPO Manufactura is the leading exhibition for the manufacturing industry in Mexico.
